### **Summary of the Project:**

We believe that the topic of youth entrepreneurship is very important for young people today. With this project, we aim to promote entrepreneurship among young people and encourage the entrepreneurial mindset in them. EU Youth Policy promotes youth entrepreneurship as one of the main topics, as well as one of the eight key competencies.

This youth exchange will take place in Moravske Toplice, Slovenia and will bring together young people from six European countries: Slovenia, Hungary, Lithuania, Spain, Italy and Croatia.

Through this project, young people from 6 countries will live together for 10 days, reflect about what it means to be an entrepreneur and how they themselves might become an entrepreneur. Entrepreneurship should not be taken only as a business concept, it brings within the creative activity in the field of art, sport, science and technology or in the NGO field. We will enable young

people to explore these various aspects of entrepreneurship, discuss about the characteristics of an entrepreneur and discover their own ideas that they could turn into action. Young people will also be informed about various forms of support for young entrepreneurs and they will receive basics of project management. The Erasmus+ programme will be presented also as a tool for promotion of entrepreneurship.

The aim of the project is to encourage and empower young people, to make them realize that entrepreneurship can be an option also for them. This project is also a great opportunity for young people to learn about another country, culture, language, broaden their horizons and get new ideas for the future.

The project is a combination of non-formal education methods: icebreakers, energizers, warm up activities, group work, discussions, learning by doing, inter-cultural nights and outdoor activities included in a series of workshops and activities connected with youth entrepreneurship.
