### **Summary of the Project:**

We believe that the topic of social entrepreneurship is very important for young people as well as whole society. Participating in this youth exchange will help young people to get a better understanding of the topic of social entrepreneurship and will encourage them to become aware of the importance of strengthening their competences, intercultural awareness, personal development, empowerment and active citizenship.

The aim of the youth exchange is to encourage and empower young people, to make them realize that social entrepreneurship can be an option also for them. We will enable young people to explore various aspects of social entrepreneurship, discuss about the characteristics of a social entrepreneur, development of a social entrepreneurial idea and placing solutions on the market and ways to finance the development of a project idea through EU projects.

This youth exchange will take place in Moravske Toplice, Slovenia and will bring together young people from six European countries: Slovenia, Hungary, Lithuania, Spain, Italy and Croatia.

Through this project, young people from 6 countries will live together for 11 days. Project will enable young participants to debate about the topic of social entrepreneurship. Participants will also be encouraged to become aware of the importance and benefits of social entrepreneurship for both the environment and local communities as well as to think about the world around them, to express themselves and to implement their ideas with which they want to improve the existing situation in their communities.

The methods of work will be in the form of non-formal education and learning from a practical work. The activities of the project will be various and participants will have the chance to enjoy different methodologies such as icebreakers, energizers, warm up activities, group work, discussions, learning by doing, inter-cultural nights and outdoor activities included in a series of workshops and activities connected with social entrepreneurship. This project is also a great opportunity for young people to learn about another country, culture, language, broaden their horizons and get new ideas for the future.
